Prime New York
 Data Management for Pros
 Stuart Osnow & Jerry Skurnik

Voter data pricing that works for your organization

There are a number of things to consider when purchasing voter data:

1. The quality & freshness of the file
2. Does the provider include the demographic voter data you need?
3. Is it required that you turn data back to the provider and can your data later be used against you in future primary campaigns?
4. Does price work with your budget?

Here's how it works at Prime New York:

- Data prices start at \$.025/record
- \$.025/record includes many fields of voter and demographic data.
- You own the file for life
- You are not charged per download or for multiple uses
- Prime New York's data is built on our high quality and constantly updated voter file. These frequent updates include running our file against the National Change of Address database (NCOA), the Social Security Death Index and five national sources for telephone numbers.
